

Application for Enrolling in Childcare Facilities

(For those interested in making use of day care centers) City of Sapporo

1. Eligibility

In 2015, a new system was introduced to support children and child rearing. To make use of daycare facilities (authorized daycare centers, Nintei Kodomo-en (centers for early childhood education and care) (organized by the childcare division)), group childcare-providing mom, small-scale childcare facilities, and in-house childcare facilities (authorized), you must apply to receive a certificate of approval to use childcare services that fall into categories 2 and 3.

Approval for childcare services will be issued for infants and young children living in Sapporo under pre-school age should both guardians need childcare because of any of the following reasons:

1. Guardians are at work (for 64 hours or more per month).
2. A guardian is pregnant and scheduled to deliver within eight weeks or has given birth within the past eight weeks.
3. A guardian(s) is/are ill, injured or physically/mentally disabled.
4. A guardian(s) is/are taking care of a family member or a relative living with them who is ill or physically/mentally disabled (for 64 hours or more per month).
5. A household is a victim of a disaster, such as a fire, an earthquake and damage caused by wind, flood, etc. and working to recover from the damage.
6. A guardian is busy seeking employment. (including preparations to launch a business)
7. A guardian attends school or job training (for 64 hours or more per month).
8. Abuse or domestic violence are suspected.
9. A guardian is granted approval for circumstances similar to those above.

2. Opening hours and periods of use

- (1) Although ordinary opening hours are between 7:00 a.m. and 6:00 p.m., two types of schedules (8 hours and 11 hours) for daycare service are available according to the guardians' working time.

Working hours (per month)	Category	Hours daycare service is available
120 hours or more	Daycare standard hours (11 hours)	Between 7:00 a.m. and 6:00 p.m.
64 to 119 hours	Daycare short hours (8 hours)	For eight hours determined separately by each facility between 8:00 a.m. and 5:00 p.m.

However, given the working situation there are cases where guardians falling under the working hour category for daycare short hours may opt to enroll their child for daycare standard hours. Contact the Health & Children Affairs Section of your local ward office for details.

Some facilities extend their opening hours according to the working hours and commuting time of guardians, when these are beyond normal opening hours, and night daycare centers provide services until midnight or 10:00 p.m. (only in Chuo and Nishi wards). Please contact the Children & Family Welfare Division of the ward office in your area for details. (A special application is required to make use of extended daycare services after admission to the relevant childcare facility.)

- (2) Eligibility for the daycare centers is restricted to children younger than elementary school age. (Eligibility for group childcare-providing mom, small-scale childcare facilities and in-house childcare facilities (authorized)) is until the end of the business year in which the child turns three.)

The eligibility period may differ depending on the reason for requiring childcare. (Refer to the “*Note” mentioned below.)

For all applications, relevant documentation explaining the need for childcare should be submitted before the start of each new business year (requests for this documentation will be sent by post or through the daycare facility in which your child is currently enrolled).

- *Note: 1. In the case childcare is necessary due to pregnancy or after childbirth (within eight weeks before giving birth and the end of the month in which the baby turns eight weeks old.)
2. In the case childcare is necessary due to job hunting, the eligibility period ends at the end of month in which falls the 90th day after admission to the childcare facility.
3. In the case childcare is necessary due to illness, injury or caring for the elderly, the period of eligibility is the period required for the treatment or care.
4. In the case childcare is necessary due to an earthquake, damage caused by wind, flooding or fire, or another disaster, the period of eligibility is the period over which damage takes to be repaired or nursing becomes available.
5. In the case childcare is necessary due to attendance at school or job training, the eligibility period ends at the end of month in which the training ends.

3. Screening and coordination procedures and the date to attend the childcare facility for the first time

Applications are accepted at any time, and the provision of daycare services will then be determined after screening and coordination. At authorized daycare centers, applications are formally accepted after screening and coordination procedures. At Nintei Kodomo-en (centers for early childhood education and care) (organized by the childcare division), group childcare-providing mom, small-scale childcare facilities and in-house childcare facilities (authorized), after screening and coordination procedures, the contract to use the daycare service will be made with the relevant facility.

The first day to attend the childcare facility is in principle the date the applicant requests. If there is no vacancy in the facility of the applicant’s choice at the requested date, the applicant will be placed on a waiting list.

4. Consultation, inquiries and applications

For more information, please contact the Children & Family Welfare Section of the regional ward office between 8:45 a.m. and 5:15 p.m. except on Saturdays, Sundays and national holidays.

5. Daycare center fees

- (1) Nursery school fees will be calculated based on your household’s income-based tax bracket (based on the user-charge) as well as the age of the child(ren) on the first day of

the business year (April 1) in which they enter the childcare facility, whether they are receiving standard time daycare or short-time daycare, and the number of children from your household in child care (fees are reduced when two or more children are enrolled at the same time).

- (2) Daycare fee brackets are determined by whether or not a household is levied for Municipal Tax. In cases where the household is taxed (including those taxed on a per capita basis only), the daycare fee bracket is determined by the amount of the per income levy of the Municipal Tax for the household.

Daycare center fees for fiscal year 2017

- Apr. 2017 – Aug. 2017: Municipal Tax amount for FY 2016
(derived from income during FY 2015)
- Sep. 2017 – Mar. 2018: Municipal Tax amount for FY 2017
(derived from income during FY 2016)

*Parents who have been living together as long-term partners without a marriage certificate or who have separate registered addresses due to work assignment are included as part of the same household unit. Additionally, in the event that grandparents or other relatives are living with parents (or in the case of single-parent households, the mother or father), calculation of childcare fees may take into account the amount of Municipal Tax levied on the house-sharing grandparents/relatives if the combined revenue of the parent(s) does not meet a certain amount.

*Calculation of Municipal Tax amount includes not only salary and/or business income, but also estate and stock share revenue, etc.

- (3) Individuals who did not have income during the one year periods of January to December 2015 or January to December 2016 must file tax returns for Municipal Tax in order to calculate the user-charge bracket. Individuals who do not file their tax return may be defaulted to the highest user-charge bracket.
- (4) Childcare fees are sometimes eligible for reduction or exemption in cases of financial difficulty due to reduced income resulting from lost employment (excluding cases where the job was quit for personal circumstance), illness, divorce, natural disaster, or other special unavoidable circumstances in accordance with leniency policy. In addition, there are cases where single parents who have not become single through divorce may eligible for widow's bereavement allowance.
- (5) Please note that overdue fee surcharges are applied to childcare fees (including long-term and temporary care fees) collected by the City of Sapporo for authorized childcare centers or the Center for Early Childhood Education and Care "Nijiro" that go unpaid for a certain period of time after the determined payment deadline, in addition to requiring payment of the originally due childcare fees.

6. Required documents

Notes

【Attached form1】

*1 The points for item 11 are in general not added elsewhere, however, in cases where a childcare facility changes status from unauthorized to authorized, these points are added to item 8 in Attached form 2.

【Attached form 2】

*2 Points should only be added for only one corresponding item among a, b, and c; not compounded. Items b and c include cases where educational operations occur at the same facility.

*3 If the child is currently receiving daycare service from a workplace daycare as part of a parent's employee benefits, points from this category shall not be added to the score - the situation is instead counted as an application for new enrollment. However, it is possible to apply the points in item 9 of Attached form 1.

*4 Applies to young children who are at least 1 year 10 months of age at the time of transfer from an infant nursery center, and to those who are at least 3 years of age at the time of transfer from Community-based Childcare Programs or from category 3 authorized daycare centers. However, when children enter category 3 authorized daycare centers after having turned 3 years old, the points apply once screening and arrangements have been made for the start of use in the next business year.

When a day care facility (excluding Community-based Childcare Programs) has been changed into a joint facility (only those with the capacity to accept applicants) and that is the first choice of the applicant, 999 points are to be added to the score. (When choosing other joint facilities for the second choice or below, 999 are still added to the score.)

*5 Applicable only in cases when the child(ren) are enrolled in the facility as of the final day before its status changes from unauthorized to authorized, and the parents wish to continue enrollment of their child(ren) at the same facility as a first choice (excluding the designated number of children of workers for daycare service in the facilities).

Attached form 3

If multiple applicants have the same total score, the points relating to "changing facilities" in both attached forms will be deducted. If the scores are still the same, priority will be given in the order below.

1	Siblings are already attending the facility.
2	Households with a low annual income
3	Households in a low income-based tax bracket
4	The child for whom an application is being made is disabled.
5	Households with multiple children
6	Nuclear households
7	Comprehensively judged according to the situation of the households
